Got NUMERACY?

A marathon is 26.2 miles.

There is 1.6km in a mile.

How many kilometres will Sunday's London Marathon runners run?

In the 2015 London Marathon, the average amount raised per active fundraiser was £1600.

In 2016 39 140 runners took part. Last year 40 382 runners signed up.

If they each raised £1600, how much more money would have been raised compared to 2015?
