

Drama

British values are intrinsic to the work that we do in the Drama Curriculum. Working in groups, co-operation, motivation and respect provide the basis of the learning in both KS3 and KS4. This encourages the students to develop patience and esteem within themselves and towards others. The topics we cover celebrate British achievements and morals from World War 2, to British playwrights and the Victorians, from the 2011 riots, to gang culture, giving the students a breadth of knowledge and understanding of the country that they live in. The combination of these topics and self-discovery, supported by the rich history, culture and performance art that we have in Britain, provides Drama students with a well-rounded subject to enjoy and learn from.
